Dear David:

I wanted to thank you for assisting me with opening an account with PayJunction; allowing The Center for Assisted Reproduction to process credit and debit transactions directly through our practice management software, Digital MD. I feel that I must bring to your attention the excellent customer service I have continually received by the entire staff of PayJunction.

I am very pleased with the advanced features we now have in processing transactions via Digital MD. The ease of payment reporting and posting of the payments directly to the patients' ledgers has been instrumental in saving time throughout the day.

In the past, I felt that merchant service providers were not sensitive to my needs and did not provide the quickest and most convenient solution to my problems. PayJunction has handled my issues as if they were their own, and I am completely satisfied.

Lowering our processing costs has been great, too! Thank you again.

Sincerely,

Meredith Fogleman
