

Red Rock Fertility®

Pay Junction is like a dream come true for our company. We have a superior payment processing system that has saved us over 40% compared to our previous provider. We have it set-up on multiple terminals at our two clinics. It is hands down the best merchant processing system I have ever used in my 20+ years of office management. My staff loves it and training to use it only takes about 2 minutes. Our representative, David Ross, is dedicated to providing the best customer service possible. I give Pay Junction 5 stars for features, ease of use, security, customer service and fees/costs. I highly recommend Pay Junction!
