Payjunction

I will start this review as I do when speaking about Payjunction. Wow! The old adage "if it's too good to be true, stay away" Does NOT apply here. David with Payjunction has it together! He has an industry background and understands the challenges of an administrative office. The Payjunction method is the best I have used in my 24 years of Practice Management. It is easy to use, easy to train, low interest rates and high flexibility. Bill payments can be made via our own website, at any of our locations and we have the ability to run Payjunction straight through our practice management software at no additional cost. Need more? I have been approached 3 times since implementing Payjunction by other vendors who "swear" they can reduce our rates. I just chuckle and let them make a proposal. ALL backed down when faced with the reality of Payjunction! More you say? It's so easy my NURSES are able to take payments when traveling to our satellite consult offices. I can't say enough about this company!

Warmest Regards!

Debbie Dugas
