

PayJunction is great! The paperless online terminal processing makes our lives easier. The system is easy to use, allows us access from any computer in the office, and produces instant results for our credit and debit processing. The best part is that we have eliminated the hassle of paper receipts, and closing our batches at the end of each month has become a breeze! We appreciate our PayJunction representative Dave Ross who is dedicated to ensuring our business continues to run smoothly, and Nick DiNapoli in card processing who is always available to answer any questions we may have. We are so pleased with the high level of customer service we receive and will continue to recommend PayJunction as an excellent company to trust for online credit card processing.
