To whom it may concern:

It is my pleasure to recommend David Ross and PayJunction as one of the premier payment processing solutions, from both a product and service stand point. Prior to PayJunction, IntegraMed was processing credit card payments across four different platforms in order to accommodate: online payments, recurring payments, card not present and card present transactions. PayJunction has consolidated all of IntegraMed's card processing into one application, one login and one reporting tool. The cloud based application and smart terminal are very intuitive to use, and allow for substantial process improvements for the operator and the client.

With the support from David Ross, and the PayJunction team, integrating PayJunction and utilizing all of its features went smoothly and was completed on schedule. David Ross was there at every stage, as we set up over 200 merchant accounts, installed over 150 smart terminals and trained over 500 users.

PayJunction has brought IntegraMed into the 21<sup>st</sup> century, and we are proud to be utilizing the most advanced technology in terms of credit card processing.

Please feel free to reach out to me with any additional questions,
